The answer is: all too well. Liza's dreams become highly sexual; her visions of ship's captain Obadiah Young grow increasingly intense. At times the past and present mix before her eyes, with automobiles replaced by horse-drawn carriages. Though skeptical of Liza's claims of a past life, whaling museum curator Adam is drawn to Liza's intense desire to know the truth -- about herself, and about Obadiah, accused of murdering his beautiful, young wife. But Adam isn't the only man with an interest in Liza -- handsome Lucian, whose home Liza is sharing for the season, has designs on her as well. In a single summer, Liza must answer the riddle of her dreams, reunite lovers separated by death, solve a hundred-year-old murder . . . and figure out her

When Kell Sabin washes up on the beach in Florida one summer night, Rachel Jones, who was not looking for any complications in her life, finds herself falling in love with the man while tending to his injuries, and when the dangerous forces that want Kell dead start to put Rachel in danger, she wonders if they can learn to live apart.

A young girl faces the consequences of sudden loss after the death of her sister. As her parents drift toward their own risky consolations, thirteen-year-old Nico is left alone to grope toward understanding and clarity, falling into a seductive, dangerous relationship with her sister's enigmatic boyfriend. Over one haunted summer, Nico must face that life-changing moment when children realize their parents can no longer help them. She learns about the power of art, of time and place, the mystery of loss and recovery. But for all the darkness at the novel's heart, the narrative itself is radiant with the lightness of summer and charged by the restless sexual tension of teenage life.

On the first day of summer, Mara Jameson went out to water her garden--and was never seen again. Years after her disappearance, no one could forget the expectant mother whose glowing smile had captured the heart of everyone who'd known her: Maeve Jameson, still mourning the loss of a granddaughter she had struggled to protect; Patrick Murphy, a dogged police detective obsessed with a vanished woman; and Lily Malone, drawn to the rugged beauty of the Nova Scotia coast and its promise of a new life. Here Lily hopes to raise her nine-year-old daughter, Rose, far from the pain and loss of the past. Here she will meet a gifted scientist, Liam Neill, whose life is on a similar trajectory from heartbreak to hope.

For as long as she can remember, 21-year-old Alice has spent summers on Fire Island with her parents and older sister, Riley. Riley, 24, is a beach lifeguard, more boyish in both looks and spirit than sweet, feminine Alice. An island neighbor and Riley's best friend, Paul, whose father is dead and mother mostly absent, returns to the island after two years away and must decide whether to sell his family's house there. More importantly, he and Alice finally act on an attraction they've felt for years, but they keep their frequent nuzzling quiet so as not to hurt Riley. Riley, meanwhile, has her own problems that could ruin Alice and Paul's clandestine romance and just about everything else. Brashares's YA roots are on display: the girls and Paul act like high school kids (Riley threatens to move out of the house unless everyone butts out; Paul and Alice are stricken with the most saccharine of puppy love), and anything below the surface is left untouched.
